BILATERAL MEETINGS

(11a.m. – 1p.m.)

(1.30p.m. – 3.30p.m.)

DESCRIPTION

Eurotranslate is ISO9001 certified LSP based in Belgrade. One of our main services is software localization. We help you adapting your software product to the linguistic, cultural and technical requirements of target market.

Local users are more likely to purchase a localized software application therefore localization usually it goes in parallel with the development of the software in order to enable simultaneous shipment of all language versions of the product.

Translation is only one step in a localization. In order to ensure functional and language quality of the product there are other tasks involved such as project management, GUI & linguistic testing, QC and desktop publishing.

We have successfully completed localization projects for various clients, such as Google, Microsoft, Nikon, Komplexo, Samsung, LG, Keytech, McAfee, Magellan, General Electrics and many others.
