About mobile app m-shop

M-shop is a native mobile application for Android and iOS platforms.
It allows your customers to buy comfortably
and without worrying from anywhere.

1

Creates dedicated and returning customers

M-shop helps to build a community
of loyal customers who buy repeatedly.

2

Communicates with the user outside of the application

M-shop sends fast push notifications
with news or promotions.

3

Supports brand awareness

Brand logo and colours are constantly visible
on the mobile screen, along with other apps.

4

Increases conversion soon after launch

M-shop improves mobile shopping making browsing
catalogue and order completion easier.

5

Makes you happy, no more work

Thanks to the fully-fledged integration with e-commerce,
business is almost maintenance-free.

6

M-shop as a SaaS

You no longer have to worry about service,
hosting and all on-going updates.

We prepare a free initial analysis.
You'll find out if m-shop is suitable for you.

Create your own mobile app with m-shop

With m-shop you have all the costs under control – from the beginning and forever.
